

Professional Standards for Confident Managers

Clear, consistent, defensible workplace standards, and managers who know how to apply them fairly.

1. Standards Audit

Starting at \$750

Review of your current dress, grooming and appearance policy, written recommendations for clear, job-related standards, and a 1-hour debrief.

2. Manager Foundation

Starting at \$2,000

Everything in the Audit, plus a half-day training for up to 12 managers: consistent enforcement, private conversations, documentation, with scripts and templates.

3. Team Rollout

Starting at \$3,500

Everything in Manager Foundation, plus updated handbook language and a 60-90 minute all-staff session introducing the standards and the reasons behind them.

Ongoing Support

From \$400/month

Quarterly manager check-ins, a coaching line for tricky situations, and an annual policy refresh. Add to any tier.

Why it works

Standards written around safety, brand and the job, not opinion, give managers a neutral basis to act. Consistent application protects your team and your business, and builds trust with employees and customers.
